ANALYSIS OF 1986 DATA

In June, 1986, public, Institutional and special libraries were mailed annual report forms. School forms were mailed in April, 1986. Academic library information was obtained from forms distributed by the Board of Regents for Higher Education in November, 1986. Public library population data is from the 1980 census. Only those libraries are listed which completed the annual report survey. All public library statistics are figured in the tables using the per capita base of reporting libraries rather than the state population as a whole.

PUBLIC LIBRARIES

Reporting Public Libraries served 2,501,732 persons, leaving 523,534 unserved. These persons are located throughout most of the state in more rural areas in 48 counties. Although all counties have a minimum of library service in one city in the county, most counties have no county-wide service. Options for serving the unserved persons of the state include multicounty library service, countywide service, or service from the state level. Countywide service is not truly a viable option at present, given the fiscal limitations of 1/2 mill from the county budget imposed by current statutes.

Personnel

Professional staff is a top priority of ODL, in order to more adequately meet the needs of public library users in the state. Public libraries this year employed 128.8 persons with a masters degree in library science, an increase of 8.7 over the previous year. Although most of this staff is concentrated in the larger cities and systems, 18 cities not located in multicounty systems have professional librarians, at least part time. Especially in need of increased staff are those systems with only a single professional employee and the ten public libraries serving over 10,000 persons with no professional librarian on the staff. Public libraries had 882.2 FTE staff members, an increase of 19.1 FTE over one year ago.

Income

Interest has been included in "other" although it is presumed to be largely from ad valorem taxes. The per capita local public library support is $11.19. With the addition of other sources of support, the total per capita support is $12.91 up $3.88 from the year before. This is artifically high for a single year due to construction projects.

Expenditures

Public libraries during FY 1986 expended $25,113,666. on operations. Of that total, 57% was expended on salaries and 16% was expended on materials. In addition, almost $7,000,000 was expended on capital outlays.

Resources
Volumes owned by reporting public libraries at the end of the year totalled 5,342,129 or 2.1 volumes per capita.

Circulation
The reporting public libraries had a circulation during the year of 12,107,992 items, or 4.8 items per capita. These same libraries had 1,416,538 registered borrowers, 41 percent of the population of the state.

NON-PUBLIC LIBRARIES (ACADEMIC, INSTITUTIONAL, SCHOOL AND SPECIAL)

Expenditures
Academic libraries during FY1986 reported expending $19,658,181 while the reporting schools expended $4,033,487. Institutional libraries expended $436,174. Special libraries report expenditures of $745,534.

Resources
A total of 6,106,625 volumes were owned by academic libraries at the end of 1986. The same libraries added 144,526 volumes to their holdings during the year. They subscribe to 49,586 periodicals.

A total of 929,085 volumes were owned by school libraries at the end of 1986. The same libraries added 55,943 volumes to their holdings during the year. They subscribe to 14,378 periodicals.

A total of 339,967 volumes were owned by special libraries at the end of 1986. The same libraries added 18,036 volumes to their holdings during the year.

A total of 112,290 volumes were owned by institutional libraries at the end of 1986. The same libraries added 18,373 volumes to their holdings during the year. They subscribe to 806 periodicals.

Circulation
Total books circulated estimated by the reporting academic libraries during 1986 was 1,510,850 items. The reporting school libraries during 1986 circulated 850,917 volumes. The institutional libraries circulated 59,415 items. Special libraries circulated 188,776 items.

Personnel

The personnel in the academic libraries included 410.9 full time equivalents in all positions and the full time equivalent of 160.4 persons with a masters in library science. The personnel in the school libraries included 167.5 full time equivalents in all positions and the full time equivalent of 99 persons with a masters in library science or school certificate. The personnel in the reporting special libraries included 20.0 full time equivalents in all positions and the full time equivalent of 6 persons with a masters in library science. The personnel in the institutional libraries included 26 full time equivalents in all positions and the full time equivalent of no persons with a masters in library science.

Hours Open

Reporting school libraries were open 37.7 hours per week average and special libraries were open an average of 51.8 hours weekly. Institutional libraries were open 40 hours per week on the average.
